

Automatic Grading

Engage your students with immediate and continuous feedback. Fully integrated with powerful rubrics.

Inline Feedback

Give your students intuitive and accessible feedback on lines of code. Use shortcuts for efficiency and consistency.

Plagiarism Detection for Code

Use our smart checker to boost academic integrity. Available for all major programming languages.

Powerful Analytics

Get insightful data about your students' performance using our advanced analytics dashboard.

Integration with any Workflow

Works with Blackboard, Canvas, Moodle and Brightspace, GitHub and GitLab, and all programming languages.

Brilliant teachers deserve brilliant tools. Start using CodeGrade now!

"CodeGrade simplified our workflow a lot. We only had to setup the automated grading system and then most of our jobs were done."

Dr. Yutao Sun

Assistant Professor at the School of Economics
Erasmus University Rotterdam

Europe's top universities use CodeGrade
